

MEMORANDUM

To: Health Commissioners, Directors of Environmental Health, Pool Contractors and Designers, and Other Interested Parties.

From: Steven A. Wagner, MPH, RS, Chief, Bureau of Environmental Health

Date: January 2, 2002 (**revised December 28, 2005**)

Re: Acceptable. Pool/Spa Paints and Coating Colors

In accordance with the Ohio Administrative Code (OAC) 3701-31-04 (C) (10) and 3701-31-041 (E) (1), "the interior surfaces of pools and spas shall be painted white, unless the color is submitted to and approved by the director."

This requirement became effective January 1, 1999 and applies to existing pools/spas that will be repainted and new pools/spas. The colors listed below were submitted to the Ohio Department of Health (ODH) and have been approved. Any of the colors listed below may be mixed with white. This list does not apply to primer colors. Other colors may be approved separately on a case by case basis. This list also applies to other colored finishes such as tile and liners. Any logos or other unique art work proposed for the pool/spa bottom must be submitted to and approved by ODH. Submittals may be sent to ODH, Bureau of Environmental Health. Black racing stripes and target marks are exempted from this requirement provided that they meet the standards of the appropriate governing body.

This list may be periodically revised to add or delete colors. If you have any questions, please call the Public Swimming Pool Program at 614-466-1390.

Acceptable Pool/Spa Paints and Coating Colors

White Pearl	Soft White		

Note:

1. Natural and unfinished **Stainless Steel** or **Aluminum** used for the shell of a public swimming pool, spa, or special use pool, or with a clear coat finish, are acceptable finishes.
2. Typically logos on pool floors are darker than the surrounding finish and are evaluated on a case-by-case basis with regard to bather safety and the ability to readily identify objects lying on the pool floor. Logos that have been accepted are those including lettering or figures not wider than a typical lane marker, or those using tile with "white" grout to provide enough contrast to readily identify objects lying on the pool floor.
3. This is not a comprehensive list, please contact the Ohio Department of Health if you have questions about the acceptance of a particular finish or wish to submit one for approval. To submit a finish for evaluation please provide the manufacturer's name and complete address (with phone number or E-mail address), a sample of the finish, and the product code number from the manufacturer or, with topical coatings-from the container label.
